Environment Promotional Activity Beyond the Campus: Cleanliness and Plantation Drive to Save Yamuna

About the Drive

The Cleanliness and Plantation drive to save Yamuna was organized by the department of Environmental Studies under the Aegis IQAC on 23 June 2023. 44 students, three faculty members, and two non-teaching staff, (Sweeper, Gardener) had participated in the drive. Students were taken to Palla and Jhangola village and conducted cleanliness and Plantation activity over two ghats of Yamuna.

The Main motive of the drive was to accomplish the goal of Swachh Bharat and to restore the river ecosystem. They collected the solid waste scattered on the bank of the river. Plantation activity was also done after cleanliness. They also learned how our day-to-day activities are affecting the quality of river water. They came to know that besides other solid waste the religious waste is also affecting the aesthetic value of the holy river Yamuna. They also visited the nearby agricultural fields and one farmhouse to understand the difference between natural and artificial ecosystems. Students enjoyed social welfare work and learned the importance of teamwork.
