

**Add-On Course on “Industrially Relevant Aspects of Food Safety and Microbiology”
Conducted by Department of Microbiology, Swami Shraddhanand College, University of Delhi
13th – 28th February 2020**

Report of Add-on /Certificate /Short term Course

Name & type of course offered	Add-On Course on “Industrially Relevant Aspects of Food Safety and Microbiology” Conducted by Department of Microbiology, Swami Shraddhanand College, University of Delhi, Delhi-110036		
Year of offering:	2020	Duration of the course (in Hrs.):	30 Hrs
Number of students enrolled in the Course:	50 (SSNC)	Number of Students completed the course:	45 (SSNC)
Convener of the Add on /Certificate /Short term Course:	Dr. A. Archana	Co-convener of the Add on	Dr. Sweta Yadav
Coordinators of the Add on	Dr. Parvinder Kaur Dr. Lakshna Mahajan		

OBJECTIVES OF THE COURSE:

The course was aimed towards providing information about food safety which includes HACCP [Hazard Analysis Critical Control Point]. HACCP is a management system in which food safety is addressed through the analysis and control of biological, chemical, and physical hazards from raw material production, procurement and handling, to manufacturing, distribution and consumption of the finished product. The course also included food preservation, food processing and fermented foods.

SKILLS ENHANCED, if any:

Students learnt to design a food retail store for efficient food safety implementation.

PROOFS & DOCUMENTS TO BE ATTACHED (Pl. mention Yes/No/NA)

- | | |
|---------------------------------------------------------------|-----|
| 1. Poster / Permission Note-sheet/ Permission through E-mail: | YES |
| 2. Attendance of the Participants: | YES |
| 3. Photographs /Video etc.: | YES |
| 4. Feedback of the participants: | YES |
| 5. Two Certificates issued to the participants: | YES |
| 6. Brief Report: | YES |

Add-On Course on “Industrially Relevant Aspects of Food Safety and Microbiology”
Conducted by Department of Microbiology, Swami Shraddhanand College, University of Delhi
13th – 28th February 2020

A 30 Hours Add-on course on **Industrially relevant Aspects of Food Technology and Microbiology** was convened by Dr. A. Archana and Dr. Sweta Yadav during 13th – 28th Feb. 2020 in Department of Microbiology. It was attended by 54 undergraduate students.

Dr. Prakash V. Khatri, Pricipal of SSNC, chaired the opening session and encouraged such activities in the interest of best overall development of the participating students. A number of subject experts from Food Industry as well as academia enlightened the enthusiastic student participants. This course was designed with a goal of enlightening the attendees on industrially important topics and deepening the understanding of application of science in industry.

Dr. Ruchi Srivastava, a senior Food Safety Consultant and ex-faculty at Delhi University opened the add-on programme by her thought provoking talk on quality assurance of foods and its need. The need and the concept of ISO 22000 and HACCP were explained in-depth. Her sessions were indeed engrossing and interactive, that motivated the audience to look forward to our sessions.

Principles of Fermentation Technology for Food Production was discussed at length by Dr. A. Archana, who is serving as Associate Professor of Microbiology at Swami Shraddhanand College, University of Delhi. Her lecture encompassed basic understanding of industrial microbiology in great detail which was found useful by the participants who wished to opt for entrepreneurship later on in their lives.

Dr. Parvinder Kaur (Assistant Professor of Microbiology at Swami Shraddhanand College, University of Delhi) enlightened the audience with an appealing and clear lecture on a plethora of delicious & nutritious Fermented Food Products. Her colorful and vivid slides illustrating these delicacies, their manufacture and their positive impact on human microbiome was indeed very gripping.

Role of Microbiome in Human Health was explained with great clarity by Dr. Lakshna Mahajan, Assistant Professor of Microbiology at Swami Shraddhanand College, University of Delhi. The heavy impact of human microbiome on lifetime immunity, and thereby on longevity was the crux of her talk. Which types of foods could enhance our microbiome was discussed in detail.

Dr. Sweta Yadav (Assistant Professor of Microbiology at Swami Shraddhanand College, University of Delhi) covered the causes and prevention of Food Borne Diseases, which was a very relevant and eye-opening topic for the young audience. Her description and slides were extremely lucid and was much applauded by the attendees, who turned keen to share this knowledge with their families too, as she expressed at the end of her talk.

Food Contaminants and their Management was described in great detail by Dr. Shalini Sehgal (Associate professor of Food Technology at Bhaskaracharya College of Applied Sciences, University of Delhi), who is an academician as well as has served at FSSAI, and hence is abreast with the norms of contemporary Food Safety. The participants were made to understand and appreciate the common food contaminants as much as how to deal with them in the best possible manner.

**Add-On Course on “Industrially Relevant Aspects of Food Safety and Microbiology”
Conducted by Department of Microbiology, Swami Shradhanand College, University of Delhi
13th – 28th February 2020**

Dr. Neetu Kumra Taneja, assistant professor at National Institute of Food Technology and Entrepreneurship and Management (NIFTEM) Sonapat delivered an interesting talk on Biofilms, how they are made by microbes in nature and the role they play for humankind.

Dr. Ruchi Srivastava, a seasoned and poised professional that she is, efficiently navigated an interactive session of global quality in a most playful and absorbing manner. This involved the students simulating the actual food product manufacturer, QA team, transporter, wholesaler, retailer, customer etc. and dealing with each other in a realistic manner, which besides being so entertaining, also was astonishingly educative of the industrial scenario. Such a unique activity was the show stopper of our Add-on course.

This series was concluded in a valedictory session chaired by our Vice Principal, Dr. A. N. Jha, who appreciated the course due to its usefulness and relevance to human society, and also distributed the participation certificates.

Add-On Course on “Industrially Relevant Aspects of Food Safety and Microbiology” Conducted by Department of Microbiology,
Swami Shraddhanand College, University of Delhi
13th – 28th February 2020

ADD-ON COURSE BY DEPARTMENT OF MICROBIOLOGY

We are pleased to announce a Ten Day Add-On Certificate Course
for Microbiology students on

“Industrially relevant aspects of Food Safety and Microbiology”

which will be conducted by Department of Microbiology,
Swami Shraddhanand College (University of Delhi), in New Building Seminar Hall
from Thursday, February 13th, 2020 at 2 p.m. onwards. The course will include talks
by eminent subject matter experts from the industry and the academia.
The course has been designed to enhance the knowledge on industrially
important topics and deepen the understanding of applications of
science in the industry.

Convenor and TIC:
Dr. A. Archana

For Registration- Room No. 116
Last Date- 11th February 2020
Registration Fee- ₹ 200

Principal:
Dr. P. V. Khatri

**Add-On Course on “Industrially Relevant Aspects of Food Safety and Microbiology”
Conducted by Department of Microbiology, Swami Shraddhanand College, University of Delhi
13th – 28th February 2020**

Programme

Add-On Course on “Industrially Relevant Aspects of Food Safety and Microbiology”
Conducted by

Department of Microbiology, Swami Shraddhanand College,
University of Delhi, Delhi-110036

13th -28th February, 2020

S. No	Date	Time	Topic	Speaker
1.	13/02/2020 Thursday	2:00 pm	HACCP [HACCP plan development, process flow chart of a specific food product, pre-requisite programme (PRP), conducting hazard analysis]	Dr. Ruchi Srivastava
2.	14/02/2020 Wednesday	9:30 am	Principles of fermentation technology in food production	Dr. A. Archana
3.	15/02/2020 Saturday	2:00 pm	Gut Microflora	Dr. Lakshna Mahajan
4.	17/02/2020 Monday	9:30 am	HACCP (continued); [Determining critical control points, decision tree, defining critical limits and operational limits, monitoring and corrective action, verification, traceability and recall, documentation and record keeping]	Dr. Ruchi Srivastava
5.	18/02/2020 Tuesday	9:30 am	Food contaminants and their management	Dr. Shalini Sehgal
6.	19/02/2020 Wednesday	11:30 am	Microbial Biofilms: An emerging food safety concern and novel intervention strategies	Dr. Neetu Kumra Taneja
7.	20/02/2020 Thursday	9:00 am	Fermented Food	Dr. Parvinder Kaur
11:0 am		Genetically Modified Crops	Dr. S. K. Srivastava	
8.	21/02/2020 Friday	9:30 am	How to design a food retail store for efficient food safety implementation?	Dr. Ruchi Srivastava
9.	22/02/2020 Saturday	2:00 pm	Food borne diseases and its prevention	Dr. Sweta Yadav
10.	24/02/2020 Monday	10:00 am	Social responsibilities of a science practitioner	Dr. Ruchi Srivastava

Add-On Course on “Industrially Relevant Aspects of Food Safety and Microbiology”
Conducted by Department of Microbiology, Swami Shraddhanand College, University of Delhi
13th – 28th February 2020

Add-On Course on “Industrially Relevant Aspects of Food Safety and Microbiology”
Conducted by Department of Microbiology, Swami Shraddhanand College, University of Delhi
13th – 28th February 2020

Dr. RUCHI SRIVASTAVA

FOOD SAFETY CONSULTANT

TOPIC:-

HACCP (continued) Determining Critical Control Points, Decision tree, Defining Critical Limits and operational limits, Monitoring and Corrective action, Verification, Traceability and recall, Documentation and Record Keeping.

**DEPARTMENT OF MICROBIOLOGY
SWAMI SHRADDHANAND COLLEGE
UNIVERSITY OF DELHI**

Add-On Course on “Industrially Relevant Aspects of Food Safety and Microbiology”
Conducted by Department of Microbiology, Swami Shradhanand College, University of Delhi
13th – 28th February 2020

Dr.A. ARCHANA
Associate Professor

TOPIC:-
**PRINCIPLES OF FERMENTATION
TECHNOLOGY FOR MICROBIAL
FOOD PRODUCTION**

**DEPARTMENT OF MICROBIOLOGY
SWAMI SHRADDHANAND COLLEGE
UNIVERSITY OF DELHI**

Add-On Course on “Industrially Relevant Aspects of Food Safety and Microbiology”
Conducted by Department of Microbiology, Swami Shradhanand College, University of Delhi
13th – 28th February 2020

Made with

Dr. SHALINI SEHGAL

FORMER DIRECTOR, FSSAI AND VICE-PRINCIPAL,
ASSOCIATE PROFESSOR
DEPARTMENT OF FOOD TECHNOLOGY
BHASKARACHARYA COLLEGE OF
APPLIED SCIENCES

TOPIC:-

**FOOD CONTAMINANTS
AND THEIR MANAGEMENT**

**DEPARTMENT OF MICROBIOLOGY
SWAMI SHRADDHANAND COLLEGE
UNIVERSITY OF DELHI**

Add-On Course on “Industrially Relevant Aspects of Food Safety and Microbiology”
Conducted by Department of Microbiology, Swami Shradhanand College, University of Delhi
13th – 28th February 2020

Made w

Dr. NEETU KUMRA TANEJA

Assistant Professor
National Institute of Food Technology
Entrepreneurship and Management
Sonepat, Haryana, India

TOPIC:-

IIACCP (IIACCP plan development, process flow chart of a specific food product, pre-requisite programme (PRP), conducting hazard analysis

Add-On Course on “Industrially Relevant Aspects of Food Safety and Microbiology”
Conducted by Department of Microbiology, Swami Shradhanand College, University of Delhi
13th – 28th February 2020

Made with

Dr. PARVINDER KAUR

ASSISTANT PROFESSOR

TOPIC:-

FERMENTED FOOD: AN OVERVIEW

**DEPARTMENT OF MICROBIOLOGY
SWAMI SHRADDHANAND COLLEGE
UNIVERSITY OF DELHI**

Add-On Course on “Industrially Relevant Aspects of Food Safety and Microbiology”
Conducted by Department of Microbiology, Swami Shraddhanand College, University of Delhi
13th – 28th February 2020

AND PREVENTION

Made with **KI**

DEPARTMENT OF MICROBIOLOGY
SWAMI SHRADDHANAND COLLEGE
UNIVERSITY OF DELHI

Dr. LAKSHNA MAHAJAN

ASSISTANT PROFESSOR

TOPIC:-

**ROLE OF MICROBIOME IN
HUMAN HEALTH**

DEPARTMENT OF MICROBIOLOGY
SWAMI SHRADDHANAND COLLEGE

Add-On Course on “Industrially Relevant Aspects of Food Safety and Microbiology”
Conducted by Department of Microbiology, Swami Shradhdhanand College, University of Delhi
13th – 28th February 2020

Dr.SWETA YADAV

ASSISTANT PROFESSOR

TOPIC:-

**FOOD BORNE DISEASES:CAUSES
AND PREVENTION**

**DEPARTMENT OF MICROBIOLOGY
SWAMI SHRADDHANAND COLLEGE
UNIVERSITY OF DELHI**

Add-On Course on “Industrially Relevant Aspects of Food Safety and Microbiology” Conducted by Department of Microbiology,
Swami Shraddhanand College, University of Delhi
13th – 28th February 2020

Department of Microbiology, Swami Shraddhanand College
University of Delhi, Alipur, Delhi-110036

Certificate of Completion

This is to certify that Mr./Ms. Rajesh Kumar of IVth Semester,
of B.Sc. (Hons.) Microbiology has successfully completed the UGC sponsored
10 days “Add-On Course” on “Industrially Relevant Aspects of Food Safety and
Microbiology” conducted by the Department of Microbiology, between 13th to 25th
February 2020 at Swami Shraddhanand College, University of Delhi.
