

LENSATION

THE PHOTOGRAPHY AND VIDEOGRAPHY SOCIETY

INTRODUCTION

"Photography is the story I fail to put into words.", everyone has a story of their own which they want to share with the world. Some convey it through writing, some depict it through acting, and others use just a lens for this work. The term "**lensation**" itself portrays the story of every photographer, as a photographer capturing a moment or just holding the camera is a feeling unmatched. This unmatched **sensation** inspired our seniors in 2019 to form the photography society "lensation". As a young society, lensation managed to leave a mark in the field of photography with the help of its incredibly talented and hardworking members. Lensation is in collaboration with several societies from various colleges.
