Dear Sir/Madam,

This is in reference to the previous email regarding drafting the syllabus as per UGCF 2022 based on NEP 2020 guidelines.

While drafting the syllabus, all members of the Syllabus Drafting Committee are requested to take care of the below-mentioned points:

1. The following credit distribution format will be followed:

- i. **DSC (Theory):-** 4T + 0P
- ii. **Core Practical:** 0T + 4P
- iii. **DSE** 3T+1P
- iv. **GE** 2T+2P
- v. **SEC** 0T+2P

2. The core practical paper in each semester shall cover the syllabus of both core papers of that semester.

3. For the computation of teaching hours for each paper, the following system should be considered:

- i. 1 Credit (Theory) = 1 Theory period of one hour duration per week
- ii. 1 Credit (Practical) = 1 Practical period of two hours duration per week

4. The decrease in the theory hours in DSE/GE due to the change from CBCS-LOCF mode to UGCF-2022 format, syllabus content may be reduced by 20-25% for both

5. It is expected that the concerned committees shall submit the draft syllabi to zoologyugcf22@gmail.com by May 30th, 2022.

Sir/Madam,

This email is in continuation to the previous email regarding the invitation to draft the syllabus as per UGCF 2022 based on NEP 2020 guidelines. The list of committees for drafting the syllabus of papers taught in the first year (Semester I and Semester II) of B.Sc. Life Sciences is attached to this email. The Convenor is requested to inform all the committee members for drafting the syllabus. While drafting the syllabus, all members of the Syllabus Drafting Committee are requested to note the below-mentioned points:

A. Computation of teaching hours for each paper for B.Sc. Life sciences

1. After due deliberations on credit distribution of papers under UGCF-2022, it was decided that the DSC, DSE and GE for multidisciplinary courses will be offered in 2T+2P credit format and SEC in 0T+2P credit format.
2. It was proposed that the decrease in the theory hours due to the change from CBCS-LOCF mode to UGCF-2022 format shall be accommodated by reducing 25% of the content from DSC and incorporating the same in the practical syllabus.
3. For the computation of teaching hours for each paper, the following system should be considered:
 - i. 1 Credit = 1 Theory period of one hour duration = 30 Theories per semester (30 Hours)
 - ii. 1 Credit = 1 Practical period of two hours duration = 30 Practical per semester (60 Hours)
- B. Each paper's theory and practical syllabus should be drafted according to the above-mentioned teaching hours.
- C. It is recommended that the theory syllabus may comprise a maximum of 4-5 Units. Likewise, the number of practical in the draft syllabus may be decided according to the content of the theory paper and the number of practical hours. (Note: Total number of Practical should not be less than 7-8 per semester)
- D. The decrease in the theory hours due to the change from CBCS-LOCF mode to UGCF-2022 format shall be accommodated by reducing 20-25% of the content for both courses.
- E. Although the syllabus of each paper needs to be reduced, at the same time, the core content of the paper needs to be kept intact.
- F. Repetition of the contents in different papers should be strictly avoided.
- G. A template file for your ready reference is attached to this email, you are requested to type in this template and keep the source formatting of each element color etc. same so that each of the course syllabus looks the same.
- H. It is expected that the concerned committees shall submit the draft syllabi within ten days of receipt of this email, i.e., May 29, 2022

I hope the above points are taken into consideration while drafting the syllabus. I look forward to your kind cooperation in finalizing the syllabus for the courses mentioned above at the earliest possible.

Thanks and Regards
