Film Festival:

The Department of English organized a one day film festival for the students on 17th October, 2012. The chief guest was Dr. Vinod Verma, Associate Professor, Maharaja Agrasen College, University of Delhi. Dr. Verma specializes in film studies and introduced the audience to basic shot types and the history of the origin of motion pictures. The visual media is a very strong critical tool to make students (re)think about the various narratives and milieus that they encounter in different texts. In other words, the movies lead to a process of distraction (in a Benjaminian sense) from the literary classics. It is because of this that film studies have become an important area of research especially in the domain of culture studies. Thus, in this effort to introduce students to the experience of studying visual narratives the department screened the movies, Charlie Chaplin's *Modern Times*, Jonathan Miller's *Antony and Cleopatra* and Satyajit Ray's *Rabindranath Tagore*. The audience included students and teachers from various departments of the college who also participated in an informative and lively discussion on the various aspects and themes of the stories, after the screening.
