Eco-Club of Swami Shradhhanand College, University of Delhi is a multidimensional, highly active society that contributes towards the creation of a greener city and nation. It seeks to foster an understanding of our own roles in the total environment and to increase the environmental awareness among the Shradhhanand community. Eco-club is a group of teachers and students dedicated to making our campus less wasteful and promoting environment friendly habits like reducing, reusing and recycling.

2021-22 was one the important year with covid and post covid effects. This year Eco club have created its new logo. The green colour of the logo reflects the passion which students feel for the environment. Green colour with tree is a symbol of creating environmental awareness amongst the future generation.

### **Main objective of eco-club includes:**

1. Motivate the students to keep their surrounding green and clean by undertaking plantation of trees.
2. Educating the students to minimize the use of plastic bags, not to throw them in public places as they choke drains and sewers, cause water logging and provides breeding grounds of insects.
3. Build attitude to help individuals and social groups to acquire feeling of concern towards the environment.
4. Teach skill to students to help the individuals for identify and solve environmental issues.

On 8<sup>th</sup> April, 2022, Eco-Club organized intercollege environmental festival to spread awareness about the environment.
