

*Report of one day online workshop on
"Google Classroom: Teaching, Learning and Managing"*

The Department of Computer Science, under the aegis of Internal Quality Assurance Cell (IQAC), Swami Shraddhanand College, University of Delhi, organized an online workshop for the faculty of the college, on "Google Classroom: Teaching, Learning and Managing", with the following details:

Date	:	24 th May, 2020
Day	:	Sunday
Time	:	3:00 pm - 6:00 pm
Resource Person	:	Mrs. Bhavya Ahuja Grover, Assistant Professor, Department of Computer Science, Ramanujan College, University of Delhi, Delhi
Convener	:	Dr. Meera Sharma, Teacher In-Charge, Department of Computer Science, Swami Shraddhanand College, University of Delhi.
Co-Conveners	:	Dr. Shveta Kundra Bhatia, Department of Computer Science, Swami Shraddhanand College Dr. Monica Gambhir, Department of Physics, Swami Shraddhanand College.
Moderator	:	Ms. Akanksha Gupta, Department of Computer Science, Swami Shraddhanand College.
No. of Participants	:	159

About the Workshop

Since the pandemic had struck the lives of all students and teachers, it had become a necessity to move the teaching-learning methodology into the virtual digital space. Google Classroom is one such tool that helps teachers to connect with their students online and share information and resources with them easily. The Department of Computer Science of Swami Shraddhanand College wanted to help the teachers of its college to learn the nuances of this handy tool in order to shift to the online mode of teaching. The workshop, given by Ms. Bhavya Ahuja Grover of Ramanujan college, aimed at making the faculty feel at ease to use Google Classroom for all

their classes and be able to use its multidimensional features and functions so as to better connect with the students from a distance. All aspects of this tool were covered in the workshop including how to create new classrooms, add students, fellow teachers, post assignments with deadlines, mark assignments, make announcements, post study materials, create online quiz etc. The workshop aimed at helping the faculty members to become adept at using this extremely important tool for teaching.

About the Resource Person

Ms. Bhavya Ahuja Grover pursued M.Sc. in Computer Science from Department of Computer Science, University of Delhi in 2011. She is currently working as an Assistant Professor in Department of Computer Science, Ramanujan College (University of Delhi) and has a teaching experience of about 8 years. Her areas of interest include Cryptography, Blockchain, IoT, Computational Linguistics and Machine Learning. She has publications in the area of Computational Linguistics and is also actively working in the area of Machine Learning. She has conducted several sessions demonstrating usage of technology as an effective medium for imparting education and also organized several training programmes in this direction.

Feedback received from participants

- This workshop is really very relevant and wonderfully delivered. Thank you all.
- Excellent work shop. Very well organized and very well explained.
- Very interactive and interesting work shop, the presentation was wonderful.
- Thanks to wonderful speaker and congratulations to computer dept. Very informative workshop.
- Highly informative lecture and has enhanced my understanding of Google classroom.
- Excellent & very useful workshop. Speaker explained all in details.
- Very effective and informative webinar know about Google classroom. very easy process using by speaker for teaching about Google classroom. Thanks to all of you.
- Very well organized webinar on Google classroom. Many aspects were touched upon which are definitely going to help in teaching learning process.
- Very Informative. Although using Google classroom earlier also but was not aware of some additional features of the app.
- Very informative and everything well explained with great patience. We are thankful to computer science department and Dr. Bhavya for a wonderful lecture.
- Very informative session. Explained in a very simple and lucid manner. Wonderful session.
- Very well explained webinar. Very useful webinar specially in this difficult period when we can't physically attend the students explained in a simple wayby the speaker
- Lecture was very impressively delivered. It made the topic very simple and easy to understand.
- It was very appropriate for the people even with no background in computers.
- Simple and excellent presentation. Looking forward for more such web workshops.
