A meeting was held to via Google Meet on 25th March, 2021 to discuss the uploading of information for the First Criteria. All the teams were requested to store a single doc and a single excel data sheet of their criteria in their respective google drives. These files should be stored in mail folder of the drive. Create a folder 'Additional Information' to store the files that need to be uploaded along with each answer. Create subfolders corresponding to each question in this folder and save files accordingly. Other files can be stored in folder other information.
